Report on Industrial Visit to India Energy Week 2025

Date: 14 february 2025

Time: 10.30 AM

Venue: Yashobhoomi, Dwarka, New Delhi

Introduction

On February 14, 2025, an industrial visit to the India Energy Week 2025 was conducted under the patronage of the Ministry of Petroleum and Natural Gas. The visit aimed to enlighten students about the various advancements in the related fields.

Attendance

The visit included 20+ active students from the Electrical and Electronics Department (EEE) branch. The presence of enthusiastic students demonstrated their keen interest in understanding the advancements in industrial technologies.

Event Overview

During the event, the students had the opportunity to witness and participate in several key highlights:

1. Energy Transition and Green Initiatives: The event emphasised India's commitment to sustainable energy.
2. Exploration and Production Reforms:
3. Advancements in Biofuel Technology: The event showcased cost-effective conversion kits enabling biofuel usage in two and three wheelers.
4. Strengthening of International Partnerships

Challenges Addressed

The event provided an eye opening experience, highlighting both the challenges and innovations shaping the energy sector. The event addressed key issues such as the transition to sustainable energy, the need for regulatory reforms in oil and gas exploration and the importance of global collaboration in securing energy resources. Overall, it inspired all the students to explore career and research opportunities in the evolving energy sector.

Conclusion

The students` experience at India Energy Week was highly enriching, providing them with firsthand exposure to the latest advancements in the energy sector. This immersive experience provided the students with valuable insights into hydrocarbons, power generation, AI and climate tech, technology and services and alternative and new energies. The visit not only broadened their understanding of the sector but also inspired them to explore opportunities in the evolving energy landscape.
